The Problem

Right now, people searching for car workshops in Sharjah are finding your competitors instead of you.

When someone searches 'car workshop near me' or 'best garage in Sharjah,' they see a map and a list. If you're not on that list, they never know you exist. You're losing customers every single day to people who don't know your work is better.

How We Fix It

1. **Google My Business Optimization** — Set up and optimize your business profile so Google knows what you do and where
2. **Local SEO Keywords** — Get found for 'car workshop Sharjah,' 'oil change near me,' 'engine repair Sharjah'
3. **Local Citations** — List your garage on trusted directories so search engines confirm you're real and local
4. **Reviews Management** — Build trust and improve your ranking with customer reviews
5. **Monthly Tracking** — See where you rank, how many people searched for you, how many visited

What You Get

More Customers — People searching for a garage in Sharjah find you first

Professional Presence — Your garage looks credible and worth the visit

Monthly Reports — See exactly how many people found you and visited

No Tech Work — We handle everything. You focus on fixing cars

Questions?

How long until I see results?

2–4 weeks for first improvements. Full visibility: 8–12 weeks.

What if I'm already on Google?

Good start, but probably incomplete or not optimized. We audit for free in a 10-minute call.

Do you guarantee #1 rank?

No. But we guarantee you'll show up for local searches and get found.

How does this compare to Google Ads?

Ads cost AED 5–20 per click. We charge one flat fee. SEO customers stay longer.

What if I want to cancel?

Your garage keeps the improvements. No lock-in after 3 months.
